The functions of the position will assist with ensuring the successful execution of world-class musical, sports, business, cultural, and family entertainment and conferences taking place at Mary Brown's Centre and the St. John's Convention Centre.

This position will include, but is not limited to:

- Inspect, adjust, maintain, service and repair equipment, boilers, compressors, pumps, valves heaters, filters, etc.
- Prepare written reports on equipment status.
- Inspect equipment to ensure good working order and working as part of a team, perform corrective and preventative maintenance on equipment as required.
- Read and interpret blueprints and drawings
- Performs all work assignments safely in accordance with the Occupational Health and Safety Act and the Regulations that apply to this work and other related legislation, St. John's Sports & Entertainment Ltd. standards, and quality checks
- Be part of an effective work planning process that utilizes work orders and planning
- Prepare estimates for work orders and requests for material required to complete jobs
- Operate the ice resurfacing machine and/or forklift as required
- Ensure safety, good housekeeping and quality standards are maintained
- Perform necessary building maintenance work as it pertains to Mary Brown's Centre and St. John's Convention Centre.

The ideal candidate should possess:

Education

- High school diploma or equivalent

Specific Skills/Certifications

- Possess a 4th Class" Power Engineer Certificate or higher
- Must have at time of hire and continue to maintain a valid Class 5 driver's license and a safe driving record.

- Basic computer knowledge in Windows based programs
- Experience in other related trades would be an asset.
- Mechanical experience including pump and fan rebuilds would also be an asset.
- Demonstrated ability, knowledge, and skills necessary to effectively perform maintenance and repairs to various equipment and systems.
- Ability to work independently and to carry out verbal and written instructions accurately and quickly and to deal with people in a tactful, diplomatic manner.

Relevant Experience

- A minimum of five (5) years Engineering experience with indirect refrigeration and boiler systems.
- Experience with HVAC systems
